Orocobre Group Participate at Arminera 2015

The Orocobre Group recently attended the 6th annual International Mining Expo “Arminera” which was held on May 5th to 9th in Costa Salguero, Buenos Aires. The event is organized by Cámara Argentina de Empresas Mineras (the Argentina Chamber of Mining Companies) and is the country’s largest conference and exhibition for the mining sector.

The Orocobre Group occupied one of 130 booths spread across four pavilions and received a positive response from the attending mining community with special congratulatory mention on the recent transition into commercial production ramp-up of the Olaroz Lithium Facility. The Orocobre Group utilized the conference as an opportunity to showcase its high quality boron and lithium products as well as meet with existing and prospective clients and industry affiliated press.

Argentina is well known for its rich reserves of traded minerals specifically that of gold, copper, silver and more recently, lithium. The mining conference highlighted the importance of developing these national resources in a sustainable manner to secure a future which benefits both the country’s economy and community.

This year participants travelled from all over the globe with attendees from Germany, Austria, Brazil, Bolivia, Canada, Chile, China, Colombia, Denmark, United States, Britain, Italy, Mexico, Peru, Poland, Czech Republic, Russia and South Africa. The diversified international audience highlights the importance that Argentina has on the global mining markets.
